

HALL Contracting of Kentucky, Inc. receives ABC National Merit Safety Award

Through participation in the **Associated Builders and Contractors Safety Training and Evaluation Process**, HALL Contracting of Kentucky was recognized for their efforts in maintaining an outstanding safety program.

Congratulations goes to HALL, the recipient of the **2006 ABC National Merit Safety Award** for the category of **NAICS 237 - Heavy and Civil Engineering Construction**.

In order to receive an award of merit, HALL was judged to be in the **top two** of the companies nationally for this category.

The award winners were selected from ABC member firms achieving **Platinum** status in the program.

Selection criteria for the national safety winners included each member's self-evaluation scores, lost workday case rates, total recordable rates, and interviews conducted by members of ABC's National Safety Committee.

The awards were presented at ABC's 17th Annual Excellence in Construction and National Safety Excellence Awards Celebration, held on June 12, 2007, at the National Building Museum in Washington, D.C.
