

# LOUISVILLE DIVERSIFIED SERVICES

*Helping adults with special needs contribute to the community.*

June 1, 2006

Dear ABC Volunteers,

The participants and staff of the Garden House wish to express their appreciation for all the thoughtfulness and hard work that went into beautification of the house and grounds. We absolutely love the changes! We have had many positive comments from neighbors and visitors.

The kitchen cabinets are absolutely gorgeous, and the kitchen is a much more cheery place to be. It is so much brighter, and the cabinets look “brand new”!

The beautiful picket fence and the mulching of the front landscape have transformed the entire property. The mulched area is already being planted into a lovely shade garden with hostas, astilbe, coral-bells and impatiens.

The new-concreted areas have made a huge difference to the participants and van drivers. The transportation providers have expressed appreciation for the ramp extension. The even surface has provided more accessibility and given participants more confidence walking to and from the building.

All of the projects and changes are greatly appreciated. We now have great “curb appeal” and a much more “homey” atmosphere. Hearing comments from the community gives us a sense of accomplishment made possible by the caring and heart felt work of all the ABC volunteers!

We want to thank you for being a big part of the Garden House Project and invite you to stop in and visit anytime to see all the wonderful changes made possible by you!

Sincerely,

Sandy Bealmear
