

HALL Contracting of Kentucky, Inc. has been in business since 1954, providing construction and maintenance services in the areas of heavy construction, electrical, commercial, civil, and utility. We have since grown into one of the most respected industrial and commercial contractors in the Southeast and Midwest.

HALL Contracting is typically listed as a general contractor since we frequently manage complete projects on a turnkey construction basis. Hall craftsmen normally do site work, foundations, concrete, underground utilities, mechanical, cross-country pipelines, compressor/metering stations, and process equipment installations. Field construction and maintenance forces normally average 350 to 400 people with peaks of over 500 craft journeymen and apprentices.

Our People Are Our Most Important Asset

HALL Contracting of Kentucky, Inc. is proud of the record it has achieved over the years concerning the safety and health of our employees. Providing a safe working environment with strict enforcement of sound safety procedures is paramount.
